Press Release

Babylon A.D. is back!

After a long hiatus, the band has re-united with all original members. The band has just released a four song E.P on March 15th 2014, titled "**Lost Sessions / Fresno, CA 93**". The new release includes the songs "**While America Sleeps**", "**Love Blind**", "**Love is a Mystery**" and a new mastered version of their #1 metal hit song "**Bang Go The Bells**". The songs are all pure hard rocking metal bangers with infectious guitar riffs from **Ron Freschi** and **Danny De La Rosa**, killer vocals from front-man **Derek Davis** and the steady back bone of **Robb Reid** on bass and **Jamey Pacheco** on the drums. These songs were lost until recently when a demo tape titled "**Fresno 93**" was found in an old memorabilia chest Derek has kept over the years. After a good listen it was obvious the band had to get the songs to their dedicated fans as a collector's item and great piece of their history, playing and songwriting work.

Formed in 1988, Babylon A.D. hail from the San Francisco Bay Area, CA. **Original members**, **Derek Davis** vocalist/songwriter, guitarists' and music writers **Danny De La Rosa** and **Ron Freschi**, Drummer **Jamey Pacheco** and bassist **Robb Reid** were all in childhood rival bands.

In 1989 Babylon A.D. caught the attention of Arista Records president and industry music mogul **Clive Davis**, who signed them at a live showcase in Los Angeles thanks to their impressive three song demo and a home made video.

Their self-titled album "**Babylon A.D.**" was released in 1990, and included their hard rock classic hits "**Bang Go The Bells**", "**Hammer Swings Down**", "**Desperate**" and "**The Kid Goes Wild**", which was the trailer song and promotional video for **Orion Pictures "ROBO COP 2"**.

The band scored three #1 songs at Metal Radio and reached gold on their first release. Their sophomore effort "**Nothing Sacred**" released in 1992 produced two more top ten metal rockers "**Bad Blood**" and "**So Savage the Heart**". Constant touring throughout the early 1990's and several MTV videos made them one of hard rock fans favorites.

After spending several years with Arista Records the band signed with Apocalypse Records in 1999 and released "**Live In Your Face**", a compilation of live tracks recorded at various cities' throughout the United States. The bands next release "**American Blitzkrieg**", soon followed in 2002 and both CDs were well received by critics and fans alike. In 2007, the band released "**Babylon A.D. In The Beginning**" on Apocalypse/Perris Records, a compilation of songs from the original demo tapes that secured them their recording contract with Arista Records. Over the last few years the band has played several selective live shows and **the new CD release has the band primed and ready to once more dominate the hard rock scene!**

The band has several dates booked across the USA in support of the new E.P. and will be playing the **Firefest Rock Festival in Nottingham England, Oct 25th 2014**.
