Moshe "Moshpit" Sabach - Drums

Biography:

Since 2005 the Israeli SWITCHBLADE has been trying to find its place in Metal music. Six years later, along with the shifting Metal subgenres, several unofficial releases, a few gigs with various of groups within the Israeli Metal scene, plenty of lineup changes, and a few bruises, SWITCHBLADE found its rightful purpose and direction. With a talented solid lineup that shared the same devotion to the classic years of Metal, the SWITCHBLADE group began playing their material with strong accordance to their true worship, 80's Heavy Metal.

2011 saw the release of the first official digital single, "Endless War / Euphoria", announcing a newfound landmark for the band. In less than a year, SWITCHBLADE issued its second digital single, "Metalista", which was highly perceived by the local and foreign Metal communities. Following that same year, SWITCHBLADE made it to the finals of local "Wacken Metal Battle" competition in Israel but sadly, they didn't make it to "Wacken Open Air". After that SWITCHBLADE began working on their debut album. Almost a year later we took notice of the band and signed them.

SWITCHBLADE's aim was not to reinvent the vintage steel, but they made it to come alive and keep the old fires burning for all the Metal maniacs all over the world.

Actual Release:

SWITCHBLADE are resurrecting the mighty 80's era of Metal while often reminding IRON MAIDEN with Bruce Dickinson at the helm, the huge, powerful sawing riffs al'a ACCEPT and spreading catchy choruses. All are the cornerstones of a brilliant album. With murderous riffery, the four musicians forged an album which will makes all goatee-bearer withering their herb. The errand to the attic is your principal duty, to arouse your long since forgotten jeans jacket.

"Heavy Weapons", consisting of nine tracks, a few from the band's past along with fresh material All those who like the METALHEAD debut (KMR-CD012) also will love SWITCHBLADE! Another top album of traditional Heavy Metal which soon will find a lot of fans!
